

The Project Management Game – how brilliant are you?

Summarized in this document, are all of the information regarding the project that might be important for work in the next weeks. First of all, there is the project schedule, including all the tasks to be completed, listed with its duration and the date by which to have them finished. Afterwards, there is a Gantt-chart, showing the dependencies to be considered in the execution of the project. All the critical parts have been colored in red. Take care not to get delays in these tasks, because they have an impact on the duration of the whole project. With these two charts, the progress of the project can be tracked.
